

CAN HAUL 208 TONS.

THE TRAIN IS PRETTY STRONG TOO.

Introducing Limitless Bonding.

How tough are the new LOCTITE
Universal Structural Bonders?

LOCTITE

Tough Enough to Haul a Freight Train with 3 Grams & 1 Hour of Cure.

The Challenge:

Prove the speed, strength and durability of LOCTITE® Universal Structural Bonders by pulling a 208-ton freight train.

The Method:

A connecting rig was designed by Henkel engineers. After cleaning and sanding the plates, 3 grams of LOCTITE® Universal Structural Bonder were applied to the plate, and allowed to cure for 60 minutes. The coupler was connected between the engine and the first car.

For the rest of this incredible story, watch the results at www.limitless-bonding.com

If LOCTITE® Universal Structural Bonders can handle this, imagine how it can handle your toughest repair challenges.

The possibilities are limitless.

Introducing Limitless Bonding*. For Limitless Repair.

LOCTITE® Universal* Structural Bonders—so strong, versatile and durable, the possibilities are limitless.

Nothing creates a feeling of pride more than a plant running smoothly. So when something goes down, time is of the essence. And every minute spent chasing down parts or rigging a fix is not just a mechanical challenge, but a personal one.

Powered by innovative hybrid technology, LOCTITE® Universal Structural Bonders can help keep your plant running with repairs that are fast, easy and durable. **For Limitless Repair. When time is anything but.**

Essential in Any Toolbox.

LOCTITE® Universal Structural Bonders are the newest additions to the portfolio of LOCTITE® adhesives, sealants and protective coatings, helping industries around the world reduce maintenance costs, increase reliability, and improve the safety and efficiency of their plants and equipment.

LOCTITE® HY 4070™

Ultra-Fast, Universal Repair Adhesive.

With a powerful combination of speed and strength, LOCTITE® HY 4070™ solves virtually any repair challenge, when time is limited. Able to rapidly bond a variety of substrates with high strength performance, LOCTITE® HY 4070™ makes versatile repairs that are fast and easy. It's an essential repair adhesive.

Your Benefits:

- Ultra-fast fixture—reduces maintenance down time
- High gap filling capability—excellent for universal repairs
- Rapid bond strength on many materials such as metal, plastics, rubber, wood, paper, leather—opens repair possibilities
- A non-drip formula gel product—stays where applied
- Good moisture, temperature, UV and chemical resistance—long lasting reliable repairs
- Ready to use syringe package with nozzle—convenient

Product	Item Number	Pack	Color/ Viscosity	Mix Ratio	Fixture Time (GBMS)	Working Time	Lap Shear Strength† (N/mm²)				Gap Fill	Temperature Resistance
							Steel (Grit Blasted)	Aluminum (etched)	Polycarbonate	Nitrile		
LOCTITE® HY 4070™	2264448	11 g	Slightly cloudy to light yellow gel	10:1	<1 minute	3-4 minutes	24-26	22-24	††	††	Up to 5mm depending on bond geometry	120°C

†ISO 4587, After 24 hours, 22°C | ††Bond exceeded strength of substrate | Contact your Henkel Representative for a Technical Data Sheet

LOCTITE® HY 4060™ GY

Durable, 5-Minute Structural Repair Adhesive.

The go-to adhesive for general-purpose repair, offering both performance and durability. LOCTITE® HY 4060™ GY provides fast fixture, and excellent bond strength, regardless of temperature and moisture conditions. LOCTITE® HY 4060™ GY is an ideal replacement for traditional two-part, 5-minute epoxies.

Your Benefits:

- Fast fixture time even at low temperatures—reduces maintenance costs
- High gap filling capability—excellent for universal repairs
- Excellent bond strength on many materials such as metal, plastics, rubber, wood, paper, leather—opens repair possibilities
- Machinable on metals—reduces replacement costs
- Very good chemical and solvent resistance—increases repair reliability
- Color indication to ensure consistent, proper mix

							Lap Shear Strength† (N/mm²)					
Product	Item Number	Pack	Color/Viscosity	Mix Ratio	Fixture Time (GBMS)	Working Time	Steel (Grit Blasted)	Aluminum (etched)	Polycarbonate	Nitrile	Gap Fill	Temperature Resistance
LOCTITE® HY 4060™ GY	2267079	25 ml	Grey (mixed) Gel	1:1	4-6 minutes	3-5 minutes	16-18	11-14	5-7	††	Up to 5mm depending on bond geometry	-40°C to 150°C

†ISO 4587, After 24 hours, 22°C | ††Bond exceeded strength of substrate | Contact your Henkel Representative for a Technical Data Sheet
