

ADVANCED COATINGS FOR CORROSIVE ENVIRONMENTS

 **TransArmour**
AN EIS BRAND

WHY REPLACE WHEN YOU CAN RECOAT - FOR JUST 10% OF THE COST?

From rusted, worn surfaces to like-new durability — TransArmour transforms utility equipment with our advanced 10X coating system. Specially designed to withstand harsh coastal and industrial environments, our system extends the life and performance of critical assets like transformers, regulators, switchgear, poles, and more.

BUILT TO WITHSTAND. ENGINEERED TO PERFORM.

HOW IT WORKS

PICK UP & RETURNS MADE EASY

- We coordinate logistics so you don't have to
- **Standard pickups:** Our truck picks up, we coat, and return units in ~2 weeks.
 - **Heavy or oversized equipment:** We schedule a hot shot or flatbed and coordinate timing with your team to transport units safely and efficiently.

Depending on your equipment size and volume, we provide custom solutions for transport. Whether it's a handful of padmounts or large power transformers, we arrange everything from our own drivers to third-party flatbeds.

SPECIFICATIONS THAT DELIVER

We don't just meet the industry standard — we redefine it

- 15,000 hrs Salt Spray Resistance (ASTM B117)
- 40-Year UV Stability (no fading)
- 40–60 Year Corrosion Resistance
- Excellent Chemical & Abrasion Resistance
- Self-Cleaning, Anti-Graffiti
- Color Matching Available
- Gladiator Bottom Coating

Built for substations, fertilizer & chemical plants, beach fronts, and more.

BLUE LABEL WARRANTY

Get dependable protection with our 3-year limited warranty on materials and workmanship — valid only when applied at an authorized TransArmour facility. While the warranty excludes extreme misuse, natural disasters, or unauthorized repairs, our promise stands: if something goes wrong, we'll make it right.

OUR COMMITMENT

We will make it right.

EXTEND EQUIPMENT LIFE - BEFORE IT'S TOO LATE

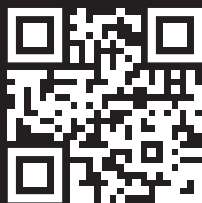

Early coating prevents:

- Oil leaks
- Rust penetration
- Costly outages

Ideal for:

- Transformers, switchgear, regulators
- Gated communities & subdivisions
- Coastal and caustic environments
- Utility field assets
