Rely on Brady SPC as your source to provide everyday essentials to your customers. These products are some of the most popular in our portfolio with most shipping within 48 hours.

- High quality products
- Unrivaled sales support
- Unbeatable application knowledge

## Basic

For those situations where a contractor-grade absorbent is most appropriate, rely on Brady SPC's Basic line of universal and oil only absorbents. Featuring single-ply construction, these pads are great for capturing leaks, drips and spills beneath machinery.

## Oil Only for Environmental Spill Control

Do you frequently deal with outdoor oil spills? The ENV series of single-ply absorbents is specifically designed with this need in mind. Non-dimpled construction maximizes surface area and absorption. These products repel water and float indefinitely, even when fully saturated. Containing a larger marine spill? ENV booms are a great option to contain and ultimately absorb excess oil in a marine environment.

Catalog #	Type	Size	Perforated	Absorbency Factor (g/gs)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity

## Quintessential MRO

It's our best seller for a reason! If versatility is key, rely on the MRO family of products for your needs. This 3-ply constructed, universal absorbent is built for a wide variety of applications. A meltblown coverstock on either side reduces linting and perforations provide cost savings, allowing you to use only what you need.

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity
<b>Universal Absorbency</b>

MRO30DP	Heavy Wt. Roll	30"x150'	Yes, every 15"	12.5	49	32	12	1/case

## Brightly Colored Chemical

Do you deal with acids, bases or other chemicals in your facility? If so, specially designed chemical absorbents are the best option for you. Versatile enough to absorb oil-based, water-based and chemical fluids, these absorbents are also brightly colored to aid in disposal.

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity

*\*Re-Form™ Absorbents are not intended for use with highly aggressive chemicals.*

## SOCs and Pillows

Do you have leaking equipment that is either flush with or raised off of the floor? SOC's and pillows can help you to provide an extra level of absorption, keeping those leaks, drips and spills out of aisles and walkways. With different sizes and lengths available, Brady SPC has an option that suits your needs.

Catalog #	Type	Size	Absorbency Factor (gl/g)	Absorbency Capacity (gal)	Shipping Wt (lbs)	Pallet Qty.	Quantity

## Spill Kit

Spill kits are the final component you need to complete your absorbent program. Conveniently placed in manufacturing cells, laboratories, general maintenance areas or near entrances, these kits are critical in the event of a spill. With a selection of pads, socks and personal protective equipment, Brady SPC spill kits include everything you need to quickly contain and clean-up a spill.

Catalog #	Type	Absorbency Cap. (gal)	Shipping Wt (lbs)	Pallet Qty.	Qty.
