# SUPPLIES AND SOLUTIONS FOR LIQUID FILLED TRANSFORMERS

EIS is known to be North America's leading specialty distributor, converter, and fabricator of electrical process materials and related parts serving transformer, electric motor, and other electrical equipment manufacturers and their aftermarket, along with electronic, alternative energy, and eMobility markets. Our broad product portfolio, custom engineered fabrication solutions, supply chain services and deep supplier relationships are the foundation that makes us a vital partner in the manufacturing and supply chain processes of our customers.

TransArmour provides engineered innovative coatings by utilizing the very latest technology to solve corrosion issues on the grid. Our advanced coating formula is designed for application on utility equipment as an alternative to stainless steel in corrosive environments. We also offer new and rebuilt transformers utilizing TransArmour coating solutions.

# PRODUCT OFFERINGS

## **EIS** supplies:

- Abrasives
- Adhesives
- Connectors/Lugs
- Convoluted & Spiral Wound Tubing
- Core Tubes
- Cotton Tapes
- Diamond Pattern Paper
- Duct Strip
- Epoxies
- Flexible Insulation
- Insulation Compounds
- Insulation Components
- Kraft Paper
- Labels
- Lacing Cord
- Magnet Wire
- Pressboard
- Rigid Insulation
- Spray Paints
- Stand-off Insulators
- Tapes

## supplies:

- Abrasives
- Arresters
- Bushings
- Contacts
- Decals
- Extrusions
- Fluid
- Fusing
- Gaskets
- Gauges
- Monitoring Systems
- Recloser Coils
- Specialty Components
- Switches
- Valves

### Substation Parts

- Asset Protection Components
- Mineral Oil & FR3 Fluid
  - By Drum, Tote, or Tanker
- Drain Valves
- Gasket Material
- LTC Contact Kits
- PX3 Cooling Fans
- Station Class Arresters
- SPX Components
  - N2-Inert Air Systems
  - Single & Dual Column Breathers
  - Positive Temperature Coefficient Heaters
  - LTC Oil Filtration Systems

\*Hotshot, NDA, and Liftgate delivery options available
