Belmont, MI

Radians is headquartered in Memphis, Tennessee and operates two additional distribution facilities in Belmont, Michigan and Sparks, Nevada. Radians offers over 70 styles of safety eyewear, lens cleaning products, lanyards and eyewear cases, a wide variety of hearing protection products, head gear, hard hats, performance gloves, industrial work boots, flashlights and safety vests. Our products are now distributed in over 48 countries on six separate continents. All Radians products are manufactured in ISO-certified factories and are field tested to ensure maximum performance and protection.

Radians has partnered with some of the most recognized brands in today's market, including DeWALT, Remington and Black & Decker. Products sold under those brand names meet the highest style, safety and quality standards.

Our biggest strength lies in our ability to listen to end users and respond to market trends and opportunities. We are a customer-focused business that offers flexible programs tailored to meet the needs of our customers.

# ***Safety Vests***

Radians knows visibility is a safety requirement in high traffic areas, around heavy equipment, and in poorly lit work environments. Hard work in these difficult places calls for noticeable solutions. Now Radians makes you visible with our complete line of safety vests.

Radians' RadWear collection now offers Non-rated, Class 2, and Class 3 vests for a safer workplace.

All Radians Class 2 and Class 3 vests meet the requirements of ANSI/ISEA 107-2004 and are 3rd party certified. Radians vests are constructed with 2" silver (CSR1303) retro-reflective stripes and a durable light weight background material available in either Hi-Viz Orange or Hi-Viz Green.

***Radically Different***

# Lens Chart

Radians safety lenses are not only stylish, but each lens option also has a specific function. This lens selection chart has been provided as a general guideline. Please contact your safety director or Radians Sales Person to determine the proper lens option for your specific application. All polycarbonate lenses provide 99.9% protection against harmful UV rays.

-  **CLEAR** – Allowing a maximum visible light transmission, this excellent safety lens is used for indoor applications where impact protection is required.
-  **ANTI-FOG** – Provides excellent fog prevention in high humidity environments where sudden shifts in temperature occur.
-  **LIGHT SMOKE** – Commonly worn outdoors to filter moderate brightness during activities where the wearer is in a shaded area, but the line of sight is in direct sunlight. Allowing approximately 50% visible light transmission, they reduce glare while allowing a brighter field of vision than a dark smoke lens.
-  **SMOKE** – Worn on bright, sunny days, these lenses provide maximum light reduction and are ideal for applications where eye strain is a major factor. They allow approximately 16% visible light transmission, show objects true to natural color and flatten light to maintain normal depth perception.
-  **INDOOR / OUTDOOR** – This light tint is a comfortable solution for moving from indoor or shaded locations to direct sunlight and back. Indoor/Outdoor allows approximately 50% visible light transmission and diminishes glare to ease the eye's adjustment from inside to outside applications, reducing eye strain.
-  **AMBER** – Light gathering properties make this lens ideal for low light environments in which contrast is low; highlights and defines by blocking out much of the blue light and allows about 84% visible light transmission.
-  **VERMILION** – For applications such as inspection where contrast may be enhanced. Enhances target point sighting of the red alignment or leveling beam. Allows 33% visible light transmission.
-  **COPPER** – This blue blocking lens allows about 20% visible light transmission and is ideal for medium to bright outdoor conditions where sunlight and glare cause eye-strain and fatigue.
-  **DESERT TAN** – Enhances depth perception. Commonly used for outdoor applications. Minimizes glare that can result in eye strain and fatigue.
-  **COFFEE** – Enhances depth perception. Commonly used for outdoor applications. Minimizes glare that can result in eye strain and fatigue.
-  **LIGHT BLUE** – Reduces glare from artificial light such as halogen and fluorescent.
-  **ORANGE** – Filters out blue and green light to reduce eye fatigue, improves visual acuity during curing and inspection processes; it allows 50% visible light transmission.
-  **GREEN** – Protects from excessive glare and enhances contrast.
-  **POLARIZED** – Eliminates all reflective glare that hits the lens and also a portion that hits from other angles. By eliminating glare it reduces eyestrain, allowing a crisp view of the surroundings. Around water, it eliminates reflection and allows viewing below the water's surface.
-  **IRUV** – Worn for applications and in environments where others are performing welding tasks such as torch brazing, torch soldering, gas welding and oxygen cutting. Available in 2.0 (light), 3.0 (medium) and 5.0 (heavy). As a general rule, the safest approach is to begin with a lens number that is too dark to see the weld zone. Move to a smaller number (as an example, from 5.0 to 3.0) until visibility allows effective work but does not cause discomfort. In oxygen fuel gas welding or cutting where the torch produces a high yellow light, it is desirable to use a filter lens that absorbs the yellow or sodium line in the visible light of the (spectrum) operation.
-  **MIRROR** – These dark tinted lenses with a reflective coating are great for outdoor applications where very bright sunlight and glare cause eye strain and fatigue. Available in Gold, Silver, Blue, Rainbow, Electric Blue, Green and Electric Orange.

## Icon Key

Meets or exceeds ANSI Z87.1 + Standards.

Provides 99.9% UVA and UVB protection.

Available with scratch resistant hardcoat.

Available with Anti-Fog coating.

Available with telescoping temples.

Available with ratcheting temples.

V0 Ballistics (0.15 caliber) testing.

Meets CSA Z94.3-1992 eyewear requirements.

Polarized lens.

Made in the U.S.A.

Assembled in the U.S.A.

Products with this label have been evaluated to Canadian safety requirements.

## EVOLUTION SERIES™

### Radians next generation of eye protection has arrived.

Evolution Series™ by Radians®.

Featuring original, modern styles that integrate the compliance and comfort elements end-users demand from a safety glass. Only eye protection with features and performance that exceed the commonly expected standards will qualify to carry the Evolution name.

All the glasses in the Evolution Series™ come in resealable packaging that is showroom friendly. All the glasses in the Evolution Series™ include a nose loop tag for easy product identification.

## Polarized Cobalt™ Polarized Revelation™

Polarized Lens. Reflective glare increases eyestrain and creates a faded effect on surrounding colors. A high quality polarized lens eliminates all reflective glare that hits the lens, reducing eyestrain and allowing a crisp view of the surrounding environment.

### Polarized Cobalt™

- Provides a comfortable fit
- Provides impact resistance
- Provides excellent orbital protection
- Amazing value

### Polarized Revelation™

- 5-Position ratchet temple
- 4-Position temple length adjustment
- Built-in ventilation channel between frame and lens
- Non-slip, rubber nose pad
- Amazing value

## Barricade™ Goggle

- Lightweight, compact goggle with comfort of protective glass
- Adjustable elastic strap
- Indirect venting system
- Soft, rubber frame
- One piece, polycarbonate lens

- BG1-10 Clear  
BG1-11 Clear Anti-Fog  
BG1-20 Smoke  
BG1-21 Smoke Anti-Fog  
BG1-91 Indoor/Outdoor Anti-Fog

## Goggles

Provide higher impact, dust and chemical splash protection than safety glasses. Goggles for splash or fine dust should have indirect venting. Use direct-vented goggles for less fogging when working with large particles. Safety glass users should graduate to goggles when there is more than occasional particle hazards. The assessment, in many cases, comes down to the severity of the hazard.

## Cloak™ Goggle

- Neoprene head strap
- Built-in ventilation channel
- Clip attachment
- Dual, injected rubber
- Polycarbonate lens

- RX insert available for this goggle. Page 22.

GOG111ID Indirect Vent - Clear Anti-Fog  
GOG-TI-24 Indirect Vent - Clear Youth

## Rad-Light™

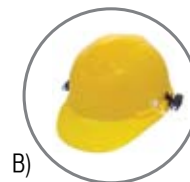

**RL-2**  
Clip-On LED Light  
One pair per bag

- Easy to operate power switch
- Showroom friendly, resealable packaging
- Superbright LED bulb
- Includes two CR2032 lithium batteries
- Battery runtime up to 60 hours.

A) 360 degree rotating clip allows for light to be attached to either right or left side.

B) Spring clip allows for easy attachment to eyewear or hardhat.

## Lens Cleaning

Sturdy, economical lens cleaning stations provide instant access for all lens cleaning needs in the plant or office. Strategically placed stations will promote proper lens cleaning techniques extending the life of prescription and non-prescription safety glasses. The specifically developed formula will clean greasy and oily glasses while providing an anti-fog/anti-static coating. Low lint, abrasive tissue leaves lenses clear and streak free.

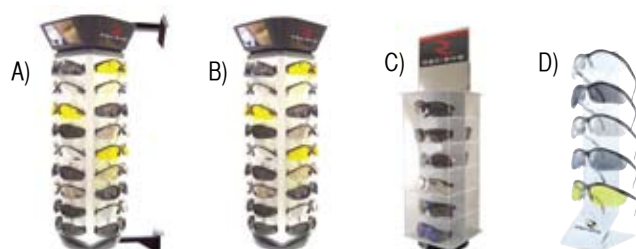

**A) LDC100**  
Dispenser Box of 100 Towelettes  
10 Dispensers per Case

Black with Radians logo

**CASE-TRI**  
3 Pockets

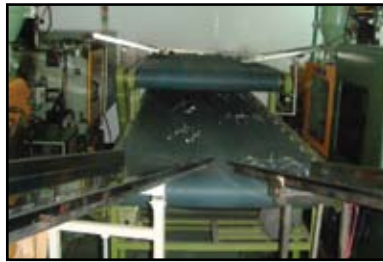

# Technical Information

## Innovation

We listen to end-user feedback as a key element of research and development of Radians eyewear. Enhanced fit, form and function of the line promotes continuous and frequent wear. Radians' commitment to fitting every end-user separates us from our peers. We offer over 70 different styles of eyewear in numerous lens colors and in four different brands that appeal to different market segments.

## Manufacturing

Radians ensures that every eyewear piece produced is of the highest quality. Every batch run is in-line tested to all applicable standards. We use only top grade materials to manufacture vision protection and our market track record will support our continued focus on products made to the highest quality standards. Eyewear is produced in ISO-certified facilities.

## Testing

Because of our global presence, Radians tests products to meet or exceed standards, including ANSI Z87.1:2003, V0 Ballistics (0.15 caliber), CSA Z94.3-1992, EN166:2001, AS/NZS 1337, ANSI S3.19-1976 for hearing protection, and additional standards for Asian-Pacific distribution. In addition to regular in-house inspections, Radians safety products are tested by third party, globally accredited, independent laboratories.

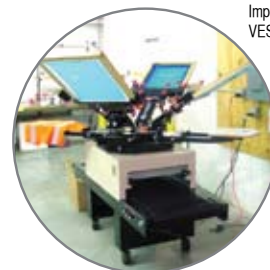

## Custom Imprinting Program

As part of our effort to provide you with tools for customer specific solutions, we offer custom imprinting on most Radians products: glasses, earmuffs, earplug containers, and safety vests.

We have the capability of doing up to two color imprints on glasses and earmuffs, and up to four colors on vests and hard hats. All imprinting jobs are done at our Michigan location and the lead time is 7 days after receipt of artwork for stock colors (PMS matching is also available for an additional fee).

Call for additional information.

- Meets ANSI Z89.1-2003 Standard, Type I, Class G & E

300-SUS Replacement nylon pinlock suspension  
300-NYSUS Replacement nylon ratchet suspension

## Diamond™

### Bump Cap

- High density polyethylene
- 4-point molded suspension
- Easy size adjustment
- Perforated sides
- Not available for imprint

#### CAUTION:

Bump caps are not designed to protect against impact from falling or glancing objects. Does **NOT** meet ANSI Z89.1-2003 requirements.

# ***Hearing Protection***

Electronic hearing protection and Radians' compression technology has changed hearing protection. Users can now wear units that enhance the surrounding sounds, while protecting the ears from harmful noises above 85dB. Compression technology captures an unsafe sound and reduces it to a safer level. The electronics in the unit provide an environment where the user can always hear the surroundings.

Radians' passive ear protection comes in two forms: ear muffs (p.27 and p.28) and ear plugs (p.30 and p.31). Earmuffs must fit tightly and comfortably over the ears so that sound is blocked from entering the ears. Ear Plugs block the canal to protect the ear from unsafe noise levels. You can also combine ear plugs and ear muffs to provide maximum hearing protection.

All Radians hearing protection products meet ANSI S3.19-1976 standards. Noise Reduction Rating - or NRR is the quickest way to determine the level of ear protection a unit offers. The higher the number, the higher the level of protection.

CoolMax® - CoolMax® by Dupont® moves moisture away while providing cool comfort.

## RedHawk™ Series

(Packed individually in clamshell)

**RD0600CS**  
Redhawk RH  
AM/FM Radio

**RD0700CD**  
Redhawk WT  
Walkie Talkie

**RD4800CS**  
Redhawk BT  
Bluetooth

The **RedHawk RH™** is an AM/FM Radio that combines crisp sound with our noise amplification and compression technology which automatically compresses harmful impulse noise to a safer range below 85dB.

The **RedHawk WT™** is an AM/FM Radio with a two way walkie-talkie with up to a two mile range. Features a noise amplification and compression technology which automatically compresses harmful impulse noise to a safer range below 85dB.

The **RedHawk BT™** has the same features as the RedHawk WT™ with the addition of Bluetooth® technology which allows you to sync your cellphone to the unit.

All three feature an auxiliary jack that provides the option to plug in an MP3 player or CD player.

- Back Pull Strap

Thinsulate  
INSULATION

Remington joins forces with license partner, Radians, Inc., to design a comprehensive hiking and hunting footwear line. Consisting of three 18" rubber boots with varying levels of insulation, two 8" hunting boots, two styles of Wellingtons and two configurations of hikers, the new Remington Footwear line provides the hiker and hunter with options to enjoy the outdoors regardless of weather conditions. All of the boots are built to withstand the elements inherent in the backwoods while remaining lightweight and comfortable for hours of sporting pleasure. Whether you are an experienced sportsman, or just beginning the adventure, Remington has a footwear solution for all hunting and outdoor needs. Sizes range from 7 to 13 with most styles available in half sizes.

**Rubber Tipped Temples**  
Provide a secure, and comfortable fit

**Distortion Free Lens**  
Reduces eye fatigue

**Soft, Rubber Nosepiece**  
Offers maximum all-day comfort

DPG52-1D Clear  
DPG52-11D Clear Anti-Fog  
DPG52-2D Smoke  
DPG52-6D Silver Mirror  
DPG52-9D Indoor/Outdoor  
DPG52-BD Light Blue

Light Blue lens reduces glare from artificial light such as halogen and fluorescent.

## Protector™

**Rubber tipped temples**  
For a secure, and comfortable fit

**Distortion free lens**  
Reduces eye fatigue

**Ergonomic, lightweight design**  
Weighs less than 1oz.

DPG54-1D Clear  
DPG54-11D Clear Anti-Fog  
DPG54-2D Smoke  
DPG54-9D Indoor/Outdoor

## Polarized DPG90-GRP™

**High Gloss Painted Frame**  
Gives the glass a high-end sunglass look

**Rubber-Tipped Temples**  
Keeps glass securely in place

**Distortion Free Lens**  
Reduces eye fatigue

**Soft, Rubber Nosepiece**

Includes Neck cord and microfiber bag

- DPG90S-P Smoke Lens (Silver Frame)
- DPG90E-P Smoke Lens (Black Frame)

Without polarized lens

With polarized lens

Also in Polarized Lens:

Radians glasses on page 14.  
Remington T70-P on page 35.

## Reinforcer™

**Cushioned, Rubber Tempe Pads**  
For maximum comfort

**Distortion Free Lens**  
Reduces eye fatigue

**Soft, Rubber Nosepiece**  
Offers maximum all-day comfort

**Handgrip Pattern on Temple**  
Provides a secure fit

- DPG58-1D Clear
- DPG58-11D Clear Anti-Fog
- DPG58-2D Smoke
- DPG58-6D Fire Mirror
- DPG58-9D Indoor/Outdoor

## Reinforcer Rx™

**Magnification Diopter**  
Molded into lens

**Distortion Free Lens**  
Reduces eye fatigue

**Cushioned, Rubber Tempe Pads**  
For maximum comfort

**Soft, Rubber Nosepiece**  
Offers maximum all-day comfort

Includes DPG02-13 Sleeve

# DEWALT

## GLOVES

The fit and comfort of DeWALT HT Gloves will protect your hands and improve your productivity as you work.

DeWALT HD Gloves offer protection for your hands and afford the highest level of comfort and dexterity available for jobs demanding precise control.

DeWALT VC Work Gloves improve comfort and productivity by providing a barrier of insulation between rapid vibration tools and your hands.

DeWALT TG Work Gloves improve productivity in handling materials or tasks where a secure grip is essential.

DeWALT CW Work Gloves are the tools that will keep your hands warm and protected in cold conditions. The design and materials provide you with the dexterity and grip necessary to handle tools and complete the most demanding jobs.

Unique MX size, DPG219 and DPG200.

## INDUSTRIAL FOOTWEAR

All DeWALT Safety Toe Footwear exceeds ASTM F2413-05 I/75 and C/75 standards. The highest available strength for impact and compression.

Static dissipative safety footwear meet the ASTM SD standard of 1-100 megohms to protect against the hazards of static build up in the workplace.

DEWALT Footwear with electrical hazard protection meet the ASTM F2413-05 EH rating and protects the wearer against open circuits.

Slip Resistant Soles are designed with slip resistant outsole compounds and are Mark II tested to reduce the risk of slips and falls in the workplace.

Highest standard of water proof leather and time tested seam sealing construction offer protection from the environment.

Puncture Resistant footwear meets ASTM PR standards to protect the wearer in hazardous environment from sharp protruding objects that may puncture to sole of the boot.

## HEAVY-DUTY ALUMINUM LED FLASHLIGHTS

### Premium X-Lamp® LED Bulb

Provides a consistently bright beam and extends battery life

### Tempered Glass Lens

Resists impact and scratches

### Regulated Electronic Circuitry

Maximizes light output and extends battery runtime

### Rubber O-Ring Seals

Provide moisture resistance

### Anodized Aluminum Grip Pattern

Resists corrosion, crushing, and provides a non-slip grip

### Two Setting Side Switch

Click for constant On or slightly depress for momentary On beam

### Hexagon Head

Prevents light from rolling

### Textured Aluminum Reflector

Produces a combination flood and spot beam with no adjustment needed

### OPTIONAL FEATURES

**DPGA-3AAAL 15 LED Bulb Cluster**  
Produces a bright light

**Wrist Lanyard**  
Included with all styles except DPGA-3D and DPGA-1AAT.

**Two Setting Tail Switch**  
DPGA-1AAT.

# GUARANTEED TOUGH.®

## DPGA-3D

Battery	(3) D Alkaline	Dimensions	13.1" (L) x 1.63" (D)
Runtime	Up to 100 Hours	Amps	900mA
Bulb	CREE XLamp® LED	Lumens	131
Weight	1.1 lbs.	Lanyard	NO

## DPGA-3C

Battery	(3) C Alkaline	Dimensions	10.25" (L) x 1.28" (D)
Runtime	Up to 90 Hours	Amps	900mA
Bulb	CREE XLamp® LED	Lumens	141
Weight	9.7 oz.	Lanyard	YES

## DPGA-3AAA

Battery	(3) AAA Alkaline	Dimensions	6.37" (L) x 1.22" (D)
Runtime	Up to 66 Hours	Amps	650mA
Bulb	CREE XLamp® LED	Lumens	80
Weight	7.2 oz.	Lanyard	YES

## DPGA-3AAAL

Battery	(3) AAA Alkaline	Dimensions	6.37" (L) x 1.22" (D)
Laser Pointer	Meets Class IIIa	Amps	650mA
Bulb	15 LEDs / 1 Laser	Lumens	19
Weight	6.9 oz.	Lanyard	YES

## DPGA-2L

Battery	(2) C123A Lithium	Dimensions	6" (L) x 0.86" (D)
Runtime	Up to 10 Hours	Amps	750mA
Bulb	CREE XLamp® LED	Lumens	112
Weight	3.3 oz.	Lanyard	YES

## DPGA-2AA

Battery	(2) AA Alkaline	Dimensions	7.3" (L) x 0.86" (D)
Runtime	Up to 4 Hours	Amps	500mA
Bulb	CREE XLamp® LED	Lumens	77
Weight	4.3 oz.	Lanyard	YES

## DPGA-1AA

Battery	(1) AA Alkaline	Dimensions	5.3" (L) x 0.86" (D)
Runtime	Up to 2 Hours	Amps	350mA
Bulb	CREE XLamp® LED	Lumens	57
Weight	3.4 oz.	Lanyard	YES

## DPGA-1AAT

Battery	(1) AA Alkaline	Dimensions	4.25" (L) x 0.86" (D)
Runtime	Up to 1.5 Hours	Amps	350mA
Bulb	CREE XLamp® LED	Lumens	66
Weight	2.4 oz.	Lanyard	NO
